

Content

Unit 1

Computer System

Introduction to Computer Technology.....	1
Computer System	2
Characteristics of Computer.....	4
A Brief History and Generation of Computer.....	6
Computer Architecture	7
<i>External Physical Structure</i>	7
Building Block Diagram of Personnel Computer	8
<i>Input Unit</i>	8
<i>Central Processing Unit (Process)</i>	8
<i>Auxiliary Storage</i>	9
<i>Data and Control Flow</i>	10
<i>Output Unit</i>	10
Computer System Accessories/Devices.....	10
<i>Input Accessories /Devices</i>	10
<i>Voice Reorganization Device</i>	13
<i>Processing and Storage Devices</i>	14
Types of Memory.....	15
<i>Internal Processor Memory</i>	15
<i>Primary Memory</i>	16
<i>Secondary Memory/External Memory</i>	19
<i>Output Accessories/Devices</i>	22
Types of Computer	27
<i>On The Basis of Work</i>	28
Differences between Analog and Digital Devices.....	30
<i>Compare between Digital, Analog and Hybrid Computer</i>	30
<i>On the Basis of Size</i>	31
<i>On the Basis of Brand</i>	34
<i>On the Basis of Model</i>	35
Points to Consider When Buying a New Computer	35
Computer Software.....	36
<i>System Software</i>	37
<i>Utility Software</i>	38
Application Software	40
<i>Word Processor</i>	40
<i>Spread Sheet</i>	41
<i>Presentation Tool</i>	42

Software Suites.....	43
<i>Office Suite</i>	43
<i>Internet Suite</i>	44
<i>Graphics Suite</i>	44
<i>Components' of Top Software Suite</i>	44
Personal Application Software.....	45
Custom Made/Special Purpose Software.....	46
Introduction to Program and Programming Language	46
Machine Language and Assembly Language.....	47
<i>Machine Language</i>	47
<i>Assembly Language</i>	48
<i>High Level Language</i>	48
Fourth Generation Language	49
Characteristics of a Good Language	50
Assemblers, Compilers and Interpreters	51
Software Licensing	52
<i>Software Licenses and Copyright Law</i>	52
<i>Shareware</i>	53
<i>Trial Software vs. Shareware</i>	53
<i>Freeware vs. Trial Software</i>	54
<i>Where Can You Get Trial Software, Shareware, and Freeware?</i>	54
Software Upgrade.....	54
<i>The Difference between a Software Upgrade and a Software Update</i>	55
<i>Open Source Code</i>	56
<i>Why is open source code useful?</i>	56
<i>Is open source useful for us?</i>	59
Enterprise Application Software	60
<i>Types</i>	60
<i>Computer Aided Design Software</i>	62
<i>Uses</i>	63
IT Infrastructure Management Opportunities, Challenges and Solutions.....	63
Chapter Review	68
Workshop	69
Case Studies	70
References	71

Unit 2

Foundation of Information System

Introduction	73
Data	74
Data Life Cycle	75
<i>Data Origination</i>	75

<i>Processing and Immediate Use</i>	75
<i>Ready Access Storage</i>	75
<i>Data Destruction</i>	75
Data Processing	76
Types of Data Processing.....	77
<i>Online Processing</i>	78
<i>Batch Processing</i>	79
<i>Real Time Processing</i>	79
<i>Combined Online and Batch Processing</i>	80
<i>Centralized Data Processing System</i>	81
<i>Decentralized Data Processing System</i>	81
Information.....	82
<i>Flow of Information</i>	82
<i>Information Generator</i>	82
Organization Needs Information	83
<i>Managers at Different Levels of Organization Needs Different Information</i>	84
Evaluating Information	85
<i>Determinants of Value of Information</i>	86
<i>Value and Cost of Information</i>	86
The Differences between Data, Information, Knowledge and Wisdom ..	88
<i>Data</i>	88
<i>Information</i>	88
<i>Knowledge</i>	89
<i>Wisdom</i>	89
<i>Difference between Data and Information</i>	90
Information System Literacy	90
Information Classification.....	91
<i>Classification on the Basis of Sources of Information</i>	92
<i>Classification on the basis of Characteristics</i>	94
<i>Information Characteristics</i>	94
Role of Information Technology in Business	95
<i>Information Technology and the Manager</i>	97
<i>Information Technology and Business Processes</i>	97
Information System	98
<i>Importance of Information System</i>	99
Fundamental Resources of Information System	99
<i>Positive and Negative Impacts of Information Systems</i>	101
Contemporary Approach to Information System	101
Business Processes and Information System	102
Strategic Role of Information System.....	103
<i>Cost Leadership Strategy</i>	104
<i>Differentiation Strategy</i>	104

<i>Innovation Strategy</i>	104
<i>Growth Strategies</i>	105
<i>Alliance Strategies</i>	105
Types of Information System	105
Operational System Information System	106
<i>Transaction Processing System (TPS)</i>	107
<i>Role of TPS in Organization</i>	109
<i>OLTPS (Online Transaction Processing System)</i>	109
<i>Benefits of TPS</i>	110
<i>Examples of TPS</i>	111
<i>Characteristics of a Good Transaction Processing System</i>	112
<i>Function of Transaction Processing System (TPS)</i>	113
<i>Knowledge Work System and Office Automation System</i>	114
<i>Office Automation Systems (OAS)</i>	114
Tactical or Management Information System (MIS)	115
How does Management use Information?	117
<i>The Management Process</i>	117
Strategic Information System (Intelligent support systems).....	118
Information System and Organization	120
Personal and Group Information System	121
<i>Personal Information System</i>	121
<i>Group Information System</i>	121
Business Perspective on Information System	122
<i>Organization</i>	122
<i>Management</i>	123
<i>Technology</i>	123
Two Way Relationship between Information System and Organization	123
<i>The Two-Way Relationship</i>	123
<i>Affect of Organization to Information System</i>	124
<i>Affect of Information System to Organization</i>	125
Information Technology and Its Importance	126
Business and Technology Trends	127
Management Information System	130
<i>Definition and History</i>	131
<i>Historical Development</i>	132
<i>Objectives of MIS</i>	133
<i>Characteristics of MIS</i>	134
<i>Impact of MIS</i>	135
Role of MIS on Business Organization.....	136
<i>Operational and Functional Support Role</i>	136
<i>Decision Support Role</i>	137
<i>The Strategic Support Role</i>	137
<i>The Performance Monitoring Role</i>	138

Properties of Management Information System.....	138
Documents & Reports by Management Information System.....	139
Conceptual Framework of Management Information System.....	139
Architectural Framework of Management Information System	141
<i>People Resources</i>	142
<i>Hardware Resources</i>	143
<i>Software Resources</i>	143
<i>Data Resources</i>	144
<i>Network Resources</i>	144
Limitations of MIS.....	144
Decision Making and MIS	145
MIS: A Tool for Management Process	146
Success and Failure of MIS	147
<i>Factors contributing to success of MIS</i>	147
<i>Factors Contributing to Failures</i>	148
Resistance to the MIS	148
Potential Risk and Information System Security	149
Approaches of MIS Development	149
<i>Top Down Approach</i>	149
<i>Bottom-up Approach</i>	151
<i>Integrative Approach</i>	152
Implementation of MIS	153
<i>Implementation Plan</i>	153
<i>Organizing the MIS Department</i>	153
<i>Selection and Procurement of Hardware</i>	154
<i>Procurement of Software</i>	155
<i>Creating the Database</i>	155
<i>Training of Users</i>	155
<i>Creating Physical Infrastructure</i>	156
<i>Transition to the New System</i>	156
MIS Development Methodologies	156
<i>Prototyping</i>	156
System Development Life Cycle.....	160
<i>Systems Planning</i>	161
<i>Systems Analysis</i>	161
<i>Systems Design and Development</i>	162
<i>Stages of Design</i>	163
<i>Logical and Physical Design</i>	164
<i>System Development</i>	164
<i>Systems Implementation and Testing</i>	165
<i>Systems Operation, Review and Support</i>	166
The Waterfall Model	166
Spiral Model.....	168

Computer-Aided Systems Engineering Tool	170
Documentation	171
<i>Types of Documentation</i>	171
Role of Systems Analyst	172
Overview of Feasibility	173
Business Processes Reengineering	175
The Role of Information Technology in BPR	176
Chapter Review	177
Workshop	180
Case Studies	181
References	183

Unit 3

Telecommunication and Network

The Concept of Network	185
Networking the Enterprises	186
A Telecommunications Network Model	187
<i>What is Communications?</i>	189
<i>How is Communications Used?</i>	189
Data Communication	190
Computer Networking	190
<i>Devices Required for Connecting Computer Networking</i>	191
Types of Telecommunication Networks	194
<i>On the Basis of Architecture</i>	194
<i>On the Basis of Geographical Location of Computer</i>	196
Network Topology	200
<i>Star Topology</i>	200
<i>Bus Topology</i>	201
<i>Mesh Topology</i>	202
<i>Ring Topology</i>	202
<i>Hybrid Topologies</i>	204
Communications Software	204
Telecommunication Media	205
<i>Physical Transmission Media</i>	205
<i>Wireless Transmission Media</i>	207
Key Considerations for Transmission Media	209
Data Transmission Mode	210
<i>Simplex</i>	210
<i>Duplex</i>	210
Analog and Digital Signal	211
Data Communication Measurement	212
Protocol	212
Threat to Computer Networking	213

<i>Environmental Threats</i>	214
<i>Logical Threats</i>	214
<i>Procedural Failure</i>	215
Network Security Techniques.....	215
<i>Access Control Techniques</i>	216
<i>Password</i>	216
<i>Dial Back</i>	216
<i>Biometric Techniques</i>	217
<i>Encryption Techniques</i>	217
Business Applications of Telecommunication.....	217
Trends of Telecommunications	218
<i>Industry Trends</i>	219
<i>Technology Trends</i>	219
<i>Business Application Trends</i>	220
The Business Value of Telecommunications Networks.....	220
<i>Business Use of the Internet</i>	221
<i>The Business Value of the Internet</i>	222
<i>The Role of Intranets</i>	223
<i>The Business Value of Intranets</i>	224
<i>The Role of Extranets</i>	225
Chapter Review	226
Workshop	228
Case Study	229
References	231

Unit 4

Data Resource Management and DSS

Introduction	233
<i>Fundamental Data Concept</i>	233
<i>Data Hierarchy</i>	236
<i>Objectives of a Database</i>	237
MIS and Database Management System	237
Components of DBMS	238
<i>Data Dictionary System (DDS)</i>	238
<i>Database Management Language (DBML)</i>	238
Database Structure Models.....	240
<i>Hierarchical Model</i>	240
<i>Network Model</i>	241
<i>Relational Model</i>	242
Relationships within a Data Model.....	242
<i>E-R Diagram</i>	243
<i>Symbols</i>	243
Database Administrator (DBA).....	245

Relational Database Management System (RDBMS).....	246
Database Development	246
<i>Planning</i>	246
<i>Analysis</i>	247
<i>Design</i>	247
<i>Implementation</i>	248
Normalization.....	248
Security in the Database Environment.....	249
<i>Points to Provide Security</i>	249
Types of Databases	250
<i>Operational Database</i>	250
<i>Distributed Databases</i>	251
<i>External Databases</i>	252
<i>Hypermedia Databases</i>	252
<i>Client Server Database</i>	253
<i>Object Oriented Database</i>	253
<i>Multimedia Databases</i>	253
Data Warehouse.....	254
<i>Data Warehouse Architecture</i>	254
Data Mining.....	255
<i>Overview</i>	255
<i>How Data Mining Works</i>	257
<i>Architecture for Data Mining</i>	257
<i>Profitable Applications</i>	257
<i>Difference between Data warehouse and Data Mining</i>	258
Decision Support System	259
<i>Decision Support in Business</i>	259
<i>Information, Decisions, and Management</i>	259
<i>Decision Structure</i>	260
<i>Decision Support Trends</i>	261
Concept of Decision-Making	264
<i>Decision-Making Process</i>	264
<i>Herbert Simon Model of Decision Making</i>	266
Decision Support Systems (DSS)	268
<i>Introduction</i>	268
<i>Components of DSS</i>	269
<i>DSS Characteristics</i>	270
<i>Functions of DSS</i>	270
<i>Why use a DSS?</i>	272
<i>Group DSS</i>	272
DSS Systems Development Life Cycle	273
<i>Systems Planning</i>	274
<i>Systems Analysis</i>	275

<i>Systems Design and Development</i>	276
<i>Stages of Design</i>	276
<i>Logical and Physical Design</i>	278
<i>System Development</i>	278
<i>Systems Implementation and Testing</i>	278
<i>Systems Operation, Review and Support</i>	279
<i>Types of DSS: Development Perspective</i>	279
OLAP (Online Analytical Processing)	281
<i>OLTP(Online Transaction Processing) and OLAP</i>	282
Knowledge Management Systems.....	283
Expert Systems	283
<i>Components of an Expert System</i>	284
Chapter Review	286
Workshop	289
Case Study	290
References	291

Unit 5

Business Applications

E-Business System.....	293
<i>E-Business Components</i>	295
E-Commerce	297
<i>Causes for Development of Ecommerce</i>	299
<i>Evolution of Commerce</i>	300
<i>Benefits of E-Commerce</i>	301
<i>Limitation of Ecommerce</i>	302
Essential e-Commerce Processes.....	303
<i>Access Control and Security</i>	304
<i>Profiling and Personalizing</i>	304
<i>Search Management</i>	305
<i>Content and Catalog Management</i>	305
<i>Workflow Management</i>	305
<i>Collaboration and Trading</i>	306
E-Commerce Success Factors.....	306
Elements of E-Commerce Applications.....	309
<i>Information Delivery Servers</i>	310
<i>Information Delivery/Transport and Ecommerce Application</i>	311
<i>Consumer Access Devices</i>	311
<i>The Network Infrastructure for Ecommerce</i>	311
Types of E-Business Model	311
Business-to-Consumer (B2C) Model	312
<i>Introduction</i>	312
<i>Meaning of B2C</i>	313

<i>Typical B2C Enabled by Internet</i>	314
<i>B2C Models</i>	314
<i>Electronic Auction</i>	314
<i>Advantages of Internet Auctions</i>	314
<i>Disadvantages of Internet Auctions</i>	315
<i>Online Stores</i>	315
<i>Benefits for the Customers</i>	315
<i>Online Services</i>	316
Business-to-Business (B2B) Model.....	316
<i>Introduction</i>	316
<i>Definition of B2B Commerce</i>	317
<i>Types of B2B Markets</i>	317
Consumer-to-consumer (C2C) Model	319
Consumer to Business (C2B)	320
E-Governance.....	321
<i>An e-governance Model</i>	323
E-Business and E-Commerce.....	323
Legal and Ethical Issues in Electronic Commerce	324
Electronic Payment Processes	325
<i>What is Electronic Payment?</i>	326
<i>Current Status of E-Payment</i>	326
<i>ePayment Channels</i>	327
<i>ePayment Instruments</i>	327
Components of Online Payment System.....	327
<i>ePayment Risks</i>	328
<i>ePayment Transaction Cycle</i>	328
Enterprise Systems	330
<i>Concept</i>	330
Enterprise Software	331
Business Value of Enterprise Systems	332
Enterprise Resource Planning	333
<i>Benefits and Challenges of ERP</i>	335
<i>The Costs of ERP</i>	335
<i>Causes of ERP Failures</i>	337
<i>Trends in ERP</i>	337
<i>Lifecycle</i>	339
<i>Cost Estimation</i>	340
<i>Benefits Realization</i>	341
Supply Chain Management Systems.....	343
<i>The Supply Chain</i>	343
<i>The Components of Supply Chains</i>	344
Information Systems and SCM	346
<i>SCM Software</i>	347

Global Supply Chains and the Internet.....	348
<i>Demand-Driven Supply Chains: From Push to Pull Manufacturing and Efficient Customer Response</i>	350
<i>Trends in SCM</i>	351
<i>The Role of SCM</i>	352
<i>Benefits and Challenges of SCM</i>	354
<i>Business Value of SCM Systems</i>	355
Customer Relationship Management Systems.....	358
<i>Customer Relationship Management</i>	358
<i>The Three Phases of CRM</i>	359
<i>Benefits and Challenges of CRM</i>	360
<i>CRM Failures</i>	360
<i>Trends in CRM</i>	361
<i>Business Value of CRM Systems</i>	362
<i>Enterprise Applications of CRM</i>	362
Cross-Functional Enterprise Applications	364
Enterprise Collaboration Systems	367
<i>Tools for Enterprise Collaboration</i>	367
Chapter Review	369
Workshop	370
Case Study	371
References	372

Unit 6

Functional Applications of Hospitality Information System

Introduction	373
Hospitality Management	374
Technology and Hospitality Management	374
Global Distribution Systems (GDS).....	376
<i>Globalization and Hospitality Industry</i>	376
<i>Global Distribution Systems (GDS)</i>	377
Property Management System (PMS).....	379
<i>Use of PMS in Hotels</i>	380
<i>Most of the PMS software has the following module</i>	381
Computer Reservations System (CRS)	382
<i>Benefits of the Central Reservations System</i>	383
Point-of-Sale Systems (POS)	385
<i>Point of Sale in the Restaurant Industry</i>	386
The Benefits of Point-of-Sale (POS) System.....	386
<i>POS Capabilities</i>	387
Chapter Review	387

Workshop	388
Case Study	389
References	392

Unit 7

Case Studies

Case 1	393
<i>eCourier, Cablecom, and Bryan Cave: Delivering Value through Business Intelligence</i>	393
<i>Case Study Questions and Solutions</i>	396
Case 2	397
<i>The New York Times and Boston Scientific: Two Different Ways of Innovating with Information Technology</i>	397
<i>Case Study Questions& Solutions</i>	400
Case 3	401
<i>Sew What? Inc.: The Role of Information Technology in Small Business Success</i>	401
<i>Case Study Questions</i>	404
Case 4	405
<i>JetBlue and the Veterans Administration: The Critical Importance of IT Processes</i>	405
<i>Case Study Questions & Solutions</i>	406
Case 5	408
<i>Competing with Information Technology</i>	408
<i>Case Study Questions & Solutions</i>	410
Case 6	412
<i>For Companies both Big and Small: Running a Business on Smartphones</i>	412
<i>Case Study Questions & Solution</i>	414
Case 7	416
<i>Wachovia and Others: Trading Securities at the Speed of Light</i>	416
<i>Value in Milliseconds</i>	418
<i>Case Study Questions and solutions</i>	419
Case 8	420
