

## Table of Contents

---

<b>Chapter 1</b>	<b>ENVIRONMENTAL POLLUTION .....</b>	<b>1-3</b>
	Environment Pollution .....	1
	Types of Pollution.....	2
	References .....	3
<b>Chapter 2</b>	<b>AIR POLLUTION .....</b>	<b>4-38</b>
	Definition and Types of Environment Pollution .....	4
	Environmental Pollution .....	4
	Major Pollutants of the Atmosphere .....	8
	Outdoor Air Pollutants .....	12
	Source of Outdoor Air Pollutants .....	13
	Effects of Air Pollutant on Human.....	13
	Effects of Air Pollutant on Animals.....	15
	Effects of Air Pollutant on Plants .....	15
	Effects of Pollutant on Materials .....	16
	Effects of Pollutant on Climates .....	16
	Indoor Air Pollutants.....	17
	Causes of Indoor Air Pollution .....	18
	Micrometeorology.....	21
	Turbulence and Diffusion .....	24
	Natural Pollutant Removal Process .....	26
	Effective Stack Height .....	29
	Diffusion Equation for the Measurement of Pollution Concentration (Gaussian's Plume Model).....	30
	Control of Air Pollutions.....	33
	Methods of Pollution Control.....	33
	References .....	38
<b>Chapter 3</b>	<b>WATER POLLUTION .....</b>	<b>39-52</b>
	Water Pollution .....	39
	Types and Sources of Surface and Ground Water Pollution ..	40
	Types of Water Pollution .....	40
	Physico-Chemical Parameters of Water Pollution .....	44
	Water Quality Standards and Legislation .....	45
	Waste Water Treatment.....	48
	Water Pollution Prevention and Control .....	52
	References .....	52

<b>Chapter 4</b>	<b>SOIL EROSION AND CONSERVATION .....</b>	<b>53-74</b>
	Soil Erosion and Conservation .....	53
	The Soil Profile .....	55
	Four Major Components of Soil .....	56
	Essential Elements from Air and Water .....	58
	Soil Erosion .....	59
	Types of Soil Erosion Caused by Water .....	63
	Wind Erosion .....	65
	Factors Affecting Wind Erosion .....	66
	Effects of Erosion As a whole) .....	66
	Soil Conservation Technique .....	67
	Universal Soil Loss Equation (USLE) .....	68
	Effects of Soil Concentration .....	72
	Water Logging and Toxicity .....	72
	Concept of Watershed Management .....	73
	References .....	74
<b>Chapter 5</b>	<b>SOLID WASTE MANAGEMENT .....</b>	<b>75-83</b>
	Introduction .....	75
	Solid Waste Sources and Types .....	75
	Actions in Solid Waste Management .....	78
	Selection of Disposal Sites .....	80
	Solid Waste Management in Nepal .....	81
	References .....	83
<b>Chapter 6</b>	<b>NOISE POLLUTION.....</b>	<b>84-89</b>
	Noise Pollution .....	84
	Effects of Noise Pollution.....	86
	Control of Noise .....	88
	References .....	89
<b>Chapter 7</b>	<b>RADIATION AND ENVIRONMENT .....</b>	<b>90-109</b>
	Natural Radioactivity .....	90
	Types of Radioactive Rays .....	91
	General Properties of Radioactive Radiations .....	91
	Detection and Measurement of Radioactivity .....	93
	Types of Radioactivity .....	98
	Radioactive Pollutants.....	99
	References .....	109

<b>Chapter 8</b>	<b>ENVIRONMENTAL TOXIOLOGY .....</b>	<b>110-146</b>
	Toxic Chemical in the Environment .....	110
	Impact of Toxic Chemicals on Enzymes .....	112
	Mode of Action of Insecticides .....	120
	DDT in Food Chain .....	121
	Methyl Isocyanate (MIC).....	121
	Carcinogens .....	122
	Pesticides and Allied Chemical.....	123
	Crude Petroleum and its Distillates .....	139
	References .....	146
<b>Chapter 9</b>	<b>EARTH HAZARD CONTROL .....</b>	<b>147-211</b>
	Definition and Concept .....	147
	Branches of Geology .....	148
	Geological Processes .....	152
	Geomorphological Sub-Division of Himalayas and their Specific Hazardous Processes .....	153
	Geomorphological Sub-Division of the Himalayas .....	154
	Geological Sub-Divisions.....	157
	The Major Tectonic Zones in the Nepal Himalaya.....	159
	The Specific Hazardous Processes of each Geomorphological Sub-Divisions .....	160
	The Mid-Land Zone .....	162
	Dangers, Hazards and Risks .....	163
	Geological Factors of Hazards .....	165
	Mass Movement (Mass-Wasting) .....	172
	Landslides.....	175
	Hillslope .....	182
	Earthquake: Nature and Scale .....	185
	Earthquake Hazards .....	189
	Bio-Engineering .....	194
	Structural Retaining Engineering Technique and Design .....	206
	Flood Hazard.....	209
	Types of Floods .....	209
	References .....	211
<b>Chapter 10</b>	<b>URBANIZATION AND SUSTAINABLE CITIES .....</b>	<b>212-219</b>
	Urbanization .....	212
	Nexus between Development and Environment .....	213
	Comparison between Economic and Ecological Criteria of Urbanization .....	215
	References .....	219

<b>Chapter 11</b>	<b>ENVIRONMENTAL IMPACT ASSESSMENT (EIA)</b>	<b>220-256</b>
	Introduction .....	220
	Purpose of EIA .....	222
	EIA in Nepal .....	223
	EIA Process .....	224
	Scoping .....	226
	Environmental Baseline .....	232
	Collection of Baseline Data .....	233
	The Role of Baseline Data in Monitoring .....	236
	Impact Prediction, Evaluation and Comparison of Alternatives .....	237
	Comparison of Alternatives .....	240
	EIA Methods .....	241
	The Calyx Expert System .....	245
	Network Method .....	246
	Mitigation Measures .....	247
	Mitigation in the EIA Process .....	249
	Drafting of EIA Reports .....	249
	Review Criteria for EIA Reports .....	251
	Review Guidance .....	252
	Monitoring .....	254
	Nepalese Perspective, Policy and Guidelines .....	255
	References .....	256
