

CONTENTS

CHAPTER 1

Algebra

1.1	Real Number System	2
1.2	Coordinates and Ordered Pairs	6
1.3	Relation	13
1.4	Equation, Inequality and Graphs	16
1.5	Surds	23
1.6	Polynomials	28
1.7	Sequence	36

CHAPTER 2

Trigonometry

2.1	Right Angled Triangle and Pythagoras Theorem	44
2.2	Introduction to Trigonometric Ratios	49
2.3	Conversion of Trigonometric Ratios	53
2.4	Trigonometric Identities	64
2.5	Trigonometric Ratios of some Standard Angles	69
2.6	Use of Trigonometric Ratios to Find the Height and Distance	77

CHAPTER 3

Coordinate Geometry

3.1	Distance between two points	86
3.2	Mid-Point Formula	95
3.3	Equations of Straight Lines	100

CHAPTER 4

Vector

4.1	Scalars and Vectors	112
4.2	Representation of a Vector	115
4.3	Operation on Vectors	125

CHAPTER 5

Transformation

5.1	Translation	138
5.2	Reflection	145
5.3	Rotation	151
5.4	Enlargement	158

CHAPTER 6

Statistics

6.1	Tabulation of Data and Calculation of Arithmetic Mean	168
6.2	Median	180
6.3	Mode	185
