

# Essentials of E-Business & E-Commerce

---

Pokhara University : BBA, BBA-BI, BBA-TT & BCIS

Tribhuvan University : BBA & BScCSIT

# Contents

<b>Unit 1</b>	<b>Introduction</b>	
	Background .....	1
	Introduction to E-Business .....	2
	Global Business .....	2
	The Importance of Going Global .....	3
	Methods of Entry into Global Markets .....	4
	Concept of e-business .....	4
	Nature and Uses of E-Business System .....	7
	Scope and Components of E-Business .....	10
	Impact of E-Business Technology .....	12
	E-business Challenges .....	13
	The History and Development of e-business .....	15
	Electronic Data Recording .....	15
	Internet .....	15
	Communication .....	15
	Digital Products .....	16
	Existence of Ecommerce and E-business .....	16
	Earners Hype Cycle for Digital Commerce .....	17
	Disruptive and Continuous Innovation Technology .....	19
	Advantages of E-business .....	20
	Introduction to E-business Models .....	21
	E-Business IT Risks .....	23
	Legal Risks .....	24
	Managing Risk .....	26
	Transition from Traditional Business to E-Business .....	27
	Forces Driving Transformation to E-business .....	28
	Information and Data Handling in E-business .....	30
	Contributors for E-business Success .....	31
	Facilitators for Business Processes .....	33
	E-business and E-commerce .....	33
	E-business verses E-commerce .....	35
	Key Differences Between e-commerce and e-business .....	36
	Role of E-commerce in E-business-Issues and Prospects .....	37
	Contribution of E-business Technologies to Economic Growth and Productivity .....	38
	Contribution of e-business to Competitiveness .....	39
	Future of Ecommerce and E-business .....	41
	Introduction to E-Commerce .....	41
	Overview of Traditional Commerce .....	41

Introduction to E-commerce .....	42
Define Ecommerce on Different Perspective .....	44
Functions of E-commerce .....	46
E-commerce Applications .....	47
A Brief History of Electronic Commerce .....	47
Recent Trends in E-commerce .....	48
E-Commerce Vs Traditional Commerce .....	50
Impact of E-Commerce on Business and Consumers .....	51
Benefits of E-commerce .....	51
Limitation of E-commerce .....	53
E-Commerce Terminologies and Fundamentals .....	54
The Digital Enterprise .....	54
Digital Economy .....	54
Digital Divide in Business .....	55
Brick to Click Mortar System .....	55
E-tailing .....	56
Procurement .....	57
Spam .....	58
Search Engines and the Internet .....	58
Spamdexing .....	58
Mobile Commerce .....	59
Concept .....	59
Components of M-Commerce .....	59
Application of M-Commerce .....	60
Why M-Commerce? .....	61
Advantages and Disadvantages of MCommerce .....	61
Difference between m-commerce and e-commerce .....	62
Technology used on the Mobile Commerce .....	63
Wireless Application Protocol (WAP) .....	64
Web Clipping on a PDA .....	65
Mobile Data Communications .....	65
Some Popular Terms used on M-Commerce .....	66
SIM (Subscriber Identity Module) .....	66
R-UIM (Removable User Identity Module) .....	66
3G (3 <sup>rd</sup> generation) .....	67
4G Fourth Generation .....	67
CDMA (Code-Division Multiple Access) .....	67
MMS (Multimedia Message Service) .....	67
SMS (Short Message Service) .....	68
GPS (Global Positioning System) .....	68
T-Commerce .....	68
E-Commerce Framework .....	69
Elements of E-Commerce Applications .....	70
Information Delivery Servers .....	70
Information Delivery/Transport and Ecommerce Application .....	71
Consumer Access Devices .....	71

The Network Infrastructure for Ecommerce .....	72
Recent Trends in E-Commerce .....	72
Workshop .....	74
References .....	76

## Unit 2      A Business Model

E-products and E-services .....	78
Introduction to E-business Models .....	78
E-products and E-services Business Model .....	80
Types of Business Model .....	81
E-Business Model Based on the Relationship of Business Parties .....	81
Business-to-consumer (B2C) Model .....	82
Meaning of B2C .....	83
How does B2C works? .....	85
B2C Models .....	86
Online Services .....	87
Capabilities and Functionalities of B2C Model .....	87
Challenges in Implementing B2C Initiative .....	88
Business-to-Business (B2B) Model .....	89
Definition of B2B Commerce .....	90
Types of B2B Markets .....	90
Types of eMarkets .....	92
The eHub Concept .....	92
Capabilities and Functionalities of eMarkets .....	93
Challenges in Implementing B2B Initiative .....	94
Consumer-to-consumer (C2C) Model .....	97
Consumer to Business (C2B) .....	99
What is e-Governance? .....	101
An E-governance Model .....	102
The Four Phases .....	103
Online Services provided through E-governance .....	104
E-business Type based on the Relationship of Transaction Type .....	105
Brokerage Model .....	105
Aggregator Model .....	108
Advertising Model .....	108
Infomediary Model .....	110
Merchant Model .....	112
Manufacturer Model .....	113
Affiliate Model .....	113
Community Model .....	113
Subscription Model .....	114
Utility Model .....	114
Value Chain Model .....	115
Workshop .....	117
References .....	118

## Unit 3 E-business Technology

Introduction .....	120
Features of E-Business Technology .....	121
E-business Technology Infrastructure Components .....	121
E-business Hardware Technology .....	123
Consumer Access Devices .....	123
Information Repository Devices .....	124
Information Security System Devices .....	128
E-business Software Applications Technology .....	129
ERP Software .....	129
Operating System Software .....	130
Web Browsers Software .....	131
Web Design and Development Software .....	131
Internet-access Software Applications .....	131
Web 2.0 .....	131
Blogs and Blogging .....	132
Electronic Mail or e-mail .....	132
Feeds .....	132
IPTV (Internet TV) .....	132
Voice Over IP (VoIP) .....	132
Widgets .....	133
Atomization .....	133
Internet and World Wide Web Technology .....	135
The World Wide Web .....	135
Hypertext .....	135
Hypertext Transfer Protocol .....	136
The Web Browser .....	136
Internet Search Engines .....	136
Uniform Resource Locator .....	136
Hypertext Mark-up Language .....	137
Multimedia .....	137
Java, Applets, JavaScript and Interactivity .....	137
Database Management Technology .....	138
Customer Data .....	138
Product Data .....	138
Sales Data .....	139
Marketing Data .....	139
Types of Database Management System used in E-business .....	139
Distributed Databases .....	139
Centralized Database System .....	140
Hypermedia Database .....	140
Online Payment Technology .....	142
IT/IS Evaluation and e-business .....	143
The Social Consequences of E-business Technologies .....	145

The Impact of E-business Technologies on Social Relationship and Communities .....	147
Workshop .....	151
References .....	153

## Unit 4      E-business and Network Security

E-Business threats and Security Technology .....	154
Threats from Malicious Code .....	155
Other Forms of Security Break .....	155
Network Security .....	157
The Main Threats to the Networking System .....	157
Client–Server Network Security .....	158
Emerging Client – Server Security Threats .....	159
Threats to Local Computing (Software Agents and Malicious Code Threat) .....	160
Threats to Servers .....	160
Firewalls .....	161
Types of Firewalls .....	162
Data and Message Security .....	164
Data Security .....	165
Message Security .....	165
Encryption as the Basis for Data and Message Security .....	167
Encryption and Decryption .....	168
Types of Cryptographic Algorithms .....	168
Digital Signatures .....	169
Certificates and Authentication .....	171
Digital Signature and Certificate of Authority Practices in Nepal .....	176
Encrypted Documents and Electronic Mail .....	177
Privacy Enhanced Mail Standard .....	178
Secure Socket Layer (SSL) .....	178
SSL between Application Protocols and TCP/IP .....	179
VPN (Virtual Private Network) .....	180
Workshop .....	182
References .....	183

## Unit 5      E-contracting & Electronic Data Interchange

Introduction .....	185
Electronic Contract .....	186
Stages of E-Contracting Process .....	186
Contracting Process on the basis of Business Phases .....	186
Contracting Process on the basis of Legal Phases .....	187
Generic Services for E-contracting .....	189
Information .....	191
The Electronic Negotiation Process .....	191

E-contract Archiving .....	192
Enforcement .....	193
Reconciliation .....	193
E-Contract Framework .....	193
Contract Subject .....	194
Content and Structure .....	194
Type of Agreement .....	194
Contract Parties .....	195
Processes .....	195
Technology .....	195
Essentials of an Electronic Contract .....	196
Business Value of E-contracting .....	197
Financial Values .....	197
Strategic Values .....	198
Stakeholder Values .....	198
Risks .....	199
Types of E-Contracting .....	199
E-Contract Paradigm .....	201
The E-contracting 4W Framework .....	202
Structure of E-contracting .....	203
Security in E-Contracting .....	206
Security Goals .....	206
Security Mechanism .....	207
Digital Signatures .....	208
Legal Rights of the Information Society .....	209
Introduction to Electronic Data Interchange (EDI) .....	210
What is EDI? .....	210
Problems with the Traditional Information Interchange .....	211
Difference in Paper-based Business and EDI based Business .....	212
How does EDI Solve the Problems .....	213
Technical Requirements for EDI .....	215
EDI Standards .....	215
EDI Architecture .....	218
Action Plan for Implementing EDI .....	218
How does EDI work .....	219
Value Aided Network (VANs) and EDI .....	220
Comparing EDI and the Internet .....	220
EDI and Electronic Commerce .....	221
EDI and Email .....	221
EDI over the Internet .....	222
Costs in EDI Implementation .....	223
Implementation of EDI .....	224
The Future of EDI .....	225
Applications of EDI .....	226
EDI Application on Business .....	227
International trade and EDI .....	227

Financial EDI .....	228
Financial EDI standard .....	228
Health Care and Insurance EDI .....	228
Manufacturing / Retail Procurement using EDI .....	229
Quick Response and EDI .....	229
Legal Issues .....	229
Security Issues in EDI .....	230
What is Middleware? .....	230
Workshop .....	233

## Unit 6 Electronic Payment System

Conventional Payment Mechanisms .....	234
Limitations of Traditional Payment Systems in the Context of Online Payments .....	235
Electronic Payment System .....	236
Advantages and Disadvantages of Electronic Payment System .....	237
Electronic Payment Process .....	238
Characteristics of Payment System .....	239
Types of Electronic Payment System .....	239
Electronic Funds Transfer at Point of Sale (EFT/POS) .....	240
Bank Networks .....	240
Direct Data Entry Transactions .....	241
Online Electronic Payment System .....	242
Electronic Cash .....	242
Electronic Cheque .....	249
Electronic Credit Cards .....	251
Smart Cards .....	253
SET (Secure Electronic Transaction) .....	254
SET Services .....	255
SET Participants .....	255
Requirements for a Payment System .....	255
Security Requirements .....	255
Privacy Requirements .....	256
Implementation Requirements .....	257
Other Requirements .....	257
Risk in E-Payment System .....	258
Designing Electronic Payment Systems .....	259
Mobile Payment (M-Payment) .....	261
Comparison between the credit card, e-cash, echeque and smart cards .....	262
Digital Wallet .....	263
Features .....	264
Advantages of digital wallet .....	265
Limitations of digital wallet .....	265
E-payment System in Nepalese Banks .....	265
Cash Payment .....	266
Cheque/Bank Draft Payment .....	266

Telegraphic Transfer (TT) Payment .....	266
Cards Payment .....	266
Internet (Online) .....	266
Mobile Payments .....	267
SWIFT .....	267
Remittance .....	267
Inter-bank .....	267
Automated Clearing House .....	267
Payment Instruction/Standing Order/Debit-Credit Authority .....	268
Postal/Money Order .....	268
Barter System .....	268
Opportunities and Challenges of E-payment in Nepal .....	268
Infrastructure and Networks .....	268
Financial and Economical .....	269
Socio- Cultural .....	269
Society for Worldwide Interbank Financial Telecommunication (SWIFT) .....	270
Workshop .....	271
References .....	272

## Unit 7      **Digital Marketing**

Concept .....	274
Advantages of Digital Marketing .....	275
Disadvantages of Digital Marketing .....	276
Comparisons between the Digital and the Traditional Marketing .....	277
Digital-Marketing Plan .....	277
The Effects of e-business Technologies on Marketing Strategy .....	278
Customer Retention and e-CRM .....	279
Stages of eCRM .....	280
Marketing Applications of CRM .....	281
Types of ECRM .....	281
Benefits of E-CRM .....	281
Measuring the Extent of Digital Marketing Activity .....	282
Traffic Metrics .....	283
Conversion Metrics .....	283
Revenue Metrics .....	284
Online and Offline Marketing .....	285
Online Marketing .....	285
Offline Marketing .....	286
Switching from Offline to Online Marketing .....	286
Digital Marketing Tools .....	288
Internet Marketing .....	289
The Origins of Internet Marketing .....	290
Internet Marketing Today .....	290
The Future of Internet Marketing .....	291
Future Trends of Internet Marketing .....	292

Online Equivalents of Traditional Techniques .....	293
Email Marketing .....	293
Advantages of Email Marketing .....	294
Drawbacks of Email Marketing .....	294
Online Advertising and Pay per Click .....	295
New versus Old Media .....	295
Advantages of Online Advertising .....	296
Pay Per Click (PPC) .....	296
Search Engine Optimization .....	297
Search Engines .....	298
Benefits of Search Engine Optimization (SEO) .....	299
Social Media and Viral Marketing .....	299
A brief history of social networking .....	300
Types of Social Media .....	303
Aggregators .....	304
Social Sharing .....	304
Collaborative Creation .....	304
Converging Media .....	305
Why do people use it? .....	305
Communicating on Social Media .....	306
Rules for Social Media Communication .....	306
Social Networking Personalities .....	307
Viral Marketing .....	307
Organic versus Controlled Viral Marketing .....	308
Alternate Reality Games .....	308
Astroturfing .....	308
Steps of a Viral Campaign .....	309
Benefits .....	310
Risks and challenges .....	310
Mobile Marketing .....	310
Introduction .....	310
A brief history of mobile devices and marketing .....	310
Benefits of Mobile Marketing .....	312
Mobile Marketing Techniques .....	312
Workshop .....	314
References .....	316

## Unit 8

# E-business and Operation Management

E-business and Operations Management Principles .....	317
Electronic Logistic Management .....	319
How e-logistics Differ from Traditional Logistics .....	321
E-Supply Chain Management .....	321
Purchasing and Procurement .....	322
Procurement .....	322
Steps in the Procurement Process .....	322

Purchasing .....	323
Objectives of the Purchasing .....	323
Steps in the Purchasing Process .....	324
Difference between Purchase and Procurement .....	325
E-Procurement .....	326
E-procurement Model-Market Solution .....	328
Buy-side e-Procurement .....	328
Sell-side e-Procurement .....	329
Marketplaces Model .....	330
Auctions and Reverse Auctions e-Procurement Model .....	331
Auctions .....	331
Reverse Auctions .....	332
Independent Portal Model and Online Trading Communities .....	334
Procurement Model Selection .....	334
Overview of e-Procurement Process .....	335
E-tendering .....	336
E-Cataloguing .....	337
E-ordering and E-invoicing .....	337
E-marketplaces .....	338
Marketplace Deliverables .....	338
Catalogue Management .....	339
Market for eProcurement Service Provider .....	340
Security Issues and Legal Affairs .....	342
Security Issues .....	342
E-Procurement Initiations in Nepal .....	342
E-Procurement: Vision of Nepal Government .....	343
E-Procurement: Strategy .....	344
E-Procurement: Objectives .....	344
E-Procurement Practices in Nepal .....	345
Legal Framework .....	347
Budgetary Provision .....	348
Accounting and Auditing Principle .....	349
Procedure and Practice .....	349
Workshop .....	351
References .....	352

## Unit 9 Online Distribution

Background .....	354
Components of a Distribution System .....	355
Factors Affecting for Selection of Distribution Channel .....	356
Environmental Factors .....	357
Market Factors .....	357
Product Factors .....	358
Manufacturer Factors .....	358
Intermediaries .....	358

Distribution Channel Design .....	358
Types of Distribution Logistics .....	360
Online Distribution .....	361
Conventional Offline Distribution .....	362
Hybrid Distribution .....	364
Reasons for implementing certain hybrid distributional systems .....	366
Electronic Software Distribution (ESD) .....	367
Architecture for Software Distribution .....	367
ESD Functions and Services .....	368
Protection through Digital Watermarks .....	369
Workshop .....	370
References .....	371

## Unit 10    E-environment and Business Plan

Business Environment .....	373
Internal Environment Factors .....	373
External Marketing Environment .....	374
Micro Environmental Factors .....	374
Macro Environmental Factors .....	374
Electronic Business Environment (e-Environment) .....	376
SLEPT Analysis .....	377
Economic and Competitive Factors .....	379
Technological Innovation and Technology Assessment .....	379
Approaches to Identifying Emerging Technology .....	382
Business Plan .....	384
Workshop .....	401
Project Work .....	402
References .....	402
<b>Syllabus .....</b>	<b>403</b>
<b>Questions Collection .....</b>	<b>409</b>
